Application Components

Through Egrants, you will provide WEM with detailed information about your project that will be used to make a funding decision. Questions on what is expected in each section or equipment not listed can be directed to Rod Stearns at (608) 381-8010 or at rod.stearns@wisconsin.gov.

1. Main Summary

This page asks for information about your agency and the individuals responsible for the application and grant award. There are many required fields on this page so if you encounter problems, please check online help by clicking the floating HELP button. Please note: When identifying individuals involved in this grant, you may not list the same person as project director and financial officer. The financial officer is the individual responsible for financial activities in your organization while the project director will be overseeing project operations.

In the Brief Project Description text box, please describe your project in 150 words or less. A suggested format is included for your convenience:

“Funds will be used by the (your agency name and others involved in the project) to (describe what funds will be used for and who will be involved). The (what - equipment, training, project, pilot, etc.) will (describe the specific goals you hope

to achieve – how will the project or equipment improve safety in Wisconsin?) [If appropriate, add which area(s) of the state will benefit]”

Responses to this section will be used on the WEM website, cited in WEM reports and could be mentioned in press releases. Plain language that clearly describes the intent of the project is most effective.

2. Approval Checklist

Answer Yes, No, or N/A (not applicable) to each question.

3. Performance Measures

Please open this section and change the page status to Complete; then SAVE the page. Performance Measures will be identified and collected during post-award reporting rather than through this funding application process.

4. Budget Detail

Complete a project budget using the following categories. For each category used, enter a justification that describes how the items in that category will be used during the course of the grant period. It is important that you include specific details for each budget line item, including cost calculations.

Equipment: Homeland Security equipment grants require that all equipment (regardless the cost) be entered in this category so that applicants can select from authorized equipment lists. Equipment is defined as items used for prevention, emergency response, and recovery operations.

Application Review and Award Criteria

All applications must be submitted on or before the deadline and will be screened for completeness and compliance with the instructions provided in this announcement. WEM staff will review applications to ensure consistency with statewide strategies and make funding recommendations to the Adjutant General. All final grant award decisions will be made by the Adjutant General.

Post-Award Special Conditions/Reporting Requirements

If you are awarded funds under this announcement, you will be required to provide regular progress reports. The schedule for your reports will be included in your grant award materials. At that time, please review all of your grant award special conditions and Egrants reporting requirements. In addition to any special conditions described in your award documents and reporting requirements contained in Egrants, you will need to provide the following:

1. Agencies that accept funding are responsible for all sustainment costs.
2. Equipment shall be maintained and available to use as intended by the grant for the duration of its useful life. Disposal of equipment must follow all applicable state, federal and local guidelines. The grantee must maintain records of any equipment disposal or transfer of ownership. Any proceeds from the sale of equipment at or near the end of useful life will be considered program revenue and must be reinvested into eligible homeland security expenses. Any armored vehicle purchased through ALERT can only

be released to a Wisconsin law enforcement agency as approved by the Executive Committee

3. Agencies accepting funding understand that equipment is intended to support regional law enforcement response efforts.
4. All personnel who utilize equipment purchased with funds from this grant must receive training either through the equipment vendor or other competent source specific to that piece of equipment and are responsible for the costs associated with it.
5. Grant modifications must be approved by WEM in order to be considered. The applicant must be current with WEM fiscal and program reports for this. Grant modifications will not be granted unless applicant provides a compelling reason.
6. Agencies accepting partial funding for the equipment understand that it is intended to support regional law enforcement response efforts with ALERT. In the event that an agency is separated from the ALERT program sooner than seven years from date of purchase, the equipment must be surrendered as directed by the ALERT Executive Committee, regardless of the agency's funding investment.
